

## Partner Profile:

### **Sutherland Cranial Teaching Foundation – Belgium (SCTF)**

The SCTF was established in 1995 as a teaching group in the Cranial Field of osteopathy (OCF). Its mission is to teach the discovery and the knowledge of William Gardner Sutherland, DO. SCTF has a staff of six, and 400 students in several locations across Belgium. The SCTF does accept foreign participants, but only DOs, Dentists, and MDs.

SCTF's objective is to teach basic and advanced cranial courses based upon the tradition stemming from William Gardner Sutherland, DO. In its endeavor to carry out these objectives, the Sutherland Cranial Teaching Foundation supports research, produces publications, and offers both basic and continuing studies courses. As a not-for-profit educational foundation, it accepts charitable contributions to support its work of perpetuating and disseminating the teachings in the science of osteopathy as expanded by Dr Sutherland.

The charter of the Sutherland Cranial Teaching Foundation calls for the organization to dedicate itself to educational activities. It specifically states its objective as using its resources to establish the principles of osteopathy in the cranial field as conceived and developed by Dr Sutherland, to disseminate a general knowledge of these principles and the therapeutic indication for this approach to treatment, to encourage and assist physicians in osteopathy, and to stimulate continued study and greater proficiency on the part of those practicing osteopathy in the cranial field.

SCTF is very proud to be an active part of the OIA in collaboration with the Osteopathic Cranial Academy (USA).
