# Introduction

## **COMMEMORATION OF THE FIRST WORLD WAR IN BELGIUM**

The First World War (1914-1918) had a profound impact on the history of Belgium and of the whole world. "More than any other modern war, '14-'18 lives in the memory as the ultimate example of a mismatch between what was at stake and the price that was paid. It is the war of the 'lost generation', sacrificed for a cause which, in hindsight, is difficult to pinpoint." (Sophie De Schaepdrijver). Although the last human witnesses are no longer with us, the First World War remains etched in the collective memory of our nation. Belgium played an important role in the conflict, not least through the courageous resistance shown by our soldiers during the German invasion. 'Poor little Belgium' earned the admiration of the world.

It is only fitting, therefore, that Belgium will play a central part in the centenary commemorations. These will include a number of national commemorative ceremonies with international scope. In addition, Belgium's various levels of government will oversee a range of cultural, artistic, historical and scientific initiatives throughout the period 2014-2018.

## In Flanders Fields (John McCrae)

In Flanders fields the poppies blow  
Between the crosses, row on row,  
That mark our place; and in the sky  
The larks, still bravely singing, fly  
Scarce heard amid the guns below.

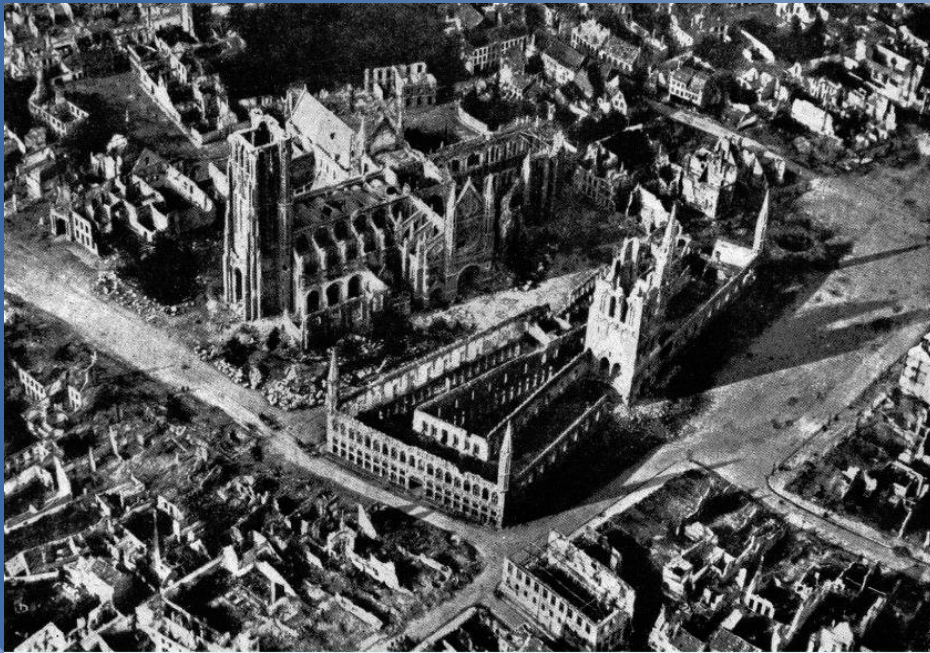

We are the Dead. Short days ago  
We lived, felt dawn, saw sunset glow,  
Loved and were loved, and now we lie  
In Flanders fields.

Take up our quarrel with the foe:  
To you from failing hands we throw  
The torch; be yours to hold it high.  
If ye break faith with us who die  
We shall not sleep, though poppies grow  
In Flanders fields.
